# Benefits of Transit Advertising

**Transit Advertising** effectively increases top-of-mind awareness through repeated exposure and the use of large, mobile graphics that brand your company. This medium also is effective in generating quick response by canvassing the marketplace with cost-effective, call-to-action messages such as those including a price point or a special event.

## **High Reach**

As traditional media becomes more fragmented, Transit Advertising can reach a large number of people without competing for ad space or airtime.

## **High Frequency**

Transit Advertising provides greater frequency than other forms of traditional advertising and helps build brand recognition with repeated impressions.

## **Extensive Coverage**

Extensive market coverage and full color designs combine to give Transit Advertising high impact. Transit advertising delivers images that are eye-catching and command attention.

## **Large Audience**

Consumers now spend less time at home than ever before. Placing a message outside targets a larger audience and is seen by three quarters of passing individuals.

# Greenlink At A Glance

- Service Area covers 94 square miles in Greenville County.
- Each Greenlink bus travels an average of 200 miles per day.

## Art Charges

An \$85 per hour art charge will apply to changes made after approval of proofs.

## Full and Partial Bus Wraps

Upon request, Greenlink will provide advertisers with three local options for production of full and partial bus wraps.

# Greenlink Advertising Policy

**Purpose:** The Greenlink Advertising Policy establishes guidelines regarding transit advertising on GTA/Greenlink buses, bus shelters, and trolleys.

**Customer Service:** Greenlink provides businesses the opportunity to advertise in one of the fastest-growing markets in the nation. Greenlink's buses are moving billboards, each one covering an average of nearly 200 miles per day and 5000 miles in a month. Greenlink's 60 bus shelters offer more opportunities for businesses to promote their brands to Greenlink riders and the general public.

**Remuneration:** Greenlink ad spaces may be purchased for a minimum of one month. One-half of the payment is due at the beginning of the Agreement, with the remainder due halfway through the Agreement, or in monthly or quarterly installments as agreed upon by Greenlink and the Advertiser.

**Criteria:**

- A. All rates are net and include ad space, installation and removal of non-wrap advertisements. Greenlink staff is responsible for the installation and removal of non-wrap ads.
- B. Greenlink reserves the right to refuse any advertisement it determines to be in violation of local community standards as determined by Greenlink, including advertisements that are deemed vulgar, distasteful, obscene, offensive, false, misleading, or otherwise objectionable. Greenlink will not accept any advertising that is religious in nature or any political advertising, including but not limited to advertisements for political candidates, parties, and nonpartisan campaigns. Greenlink will not accept advertising for causes which are determined to be of a controversial or disruptive nature, in the sole reasonable judgment of Greenlink. No advertising for alcoholic beverages, beer, or wine shall be accepted or appear on any advertising placed on buses or shelters.
- C. Any advertisements delivered to Greenlink which do not meet published specifications will not be placed by Greenlink. Any production costs of unplaced advertisements shall remain the responsibility of the customer. Greenlink is not responsible for any expenses incurred by the customer in production of advertisements which do not meet the published specifications.
- D. All advertisements must be approved by Greenlink before being placed in public view, including review of final artwork. Greenlink reserves the right to reject advertising based on community standards and shall not be held liable for any expenses incurred by the customer or its agency in design, production, or other costs for rejected advertising.
- E. Full wraps must include the Greenlink logo in the top right corner of the bus, and on both sides of the bus where the logo presently is located.
- F. Rates are subject to change without notice.
- G. Greenlink cannot guarantee that specific buses will remain on specific routes for the duration of the advertising campaign. Greenlink will try to satisfy the clients' geographic requests, but due to repair and maintenance issues, buses cannot be guaranteed to service specific routes.
- H. Greenlink reserves the right to move non-wrap ads between buses when repair and maintenance issues require the ads to be moved. Greenlink will notify the Advertiser of such change.
